Wednesdays – Environmental Engineers **Nursery (12:25-12:55) Mechina (3:05-3:40)** **Taught by Teacher Isabel**

Reduce, reuse, and recycle. Recycling with kids is incredibly important to do, and a great concept to promote. In this class, children will gain environmental awareness by learning that recycling goes beyond having a second garbage bin. By re-purposing items before throwing them away, kids will learn that making new items from recycled ones takes less energy and fewer resources than making products from new materials. Using their creativity they will make jewelry boxes, magnets, robots and more!
